HIGH PERFORMANCE WEAPON CLP

NYCOLUBE® 127 CLP PRODUCT RANGE

**MIL-PRF-63460 * | BT-PS-661 A * | Eq. to DCSEA 501/A
NATO CODE S-758**

The **NYCOLUBE® 127 CLP product range** is composed of highly penetrating fluids specifically designed to clean, lubricate and protect your firearms and weapon systems. **NYCOLUBE 127 CLP & NYCOLUBE 127 CLP BIO** are based on the highest quality synthetic oil and contain anti-corrosion and anti-wear additives. Both products have been formulated to keep small and large caliber weapons combat-ready in the harshest environments.

Biobased CLP is defined as CLP that is derived from plants and other renewable agricultural, marine, and forestry materials in a formulation yielding a minimum percentage of biobased content. **NYCOLUBE® 127 CLP BIO** contains around 46% of biobased content and responds to NYCO's ambition to develop more sustainable products.

Our products are trusted and used by major firearms manufacturers & dealers, armed forces, law enforcement, security agencies and shooting clubs worldwide.

ALL-IN-ONE CLP solution,

1. Cleans

NYCOLUBE® 127 CLP product range effectively cleans all metal parts and removes propellant powder residue and other contaminants that damage your weapon over time.

2. Lubricates

NYCOLUBE® 127 CLP product range reduces friction and wear while sustaining the desired fire rate and enabling all parts to work smoothly in all environment types without failure.

3. Protects

NYCOLUBE® 127 CLP product range protects against corrosion in all climatic conditions and during storage thanks to its active antirust additives and water repellant film.

* Approved against the specifications.

NYCOLUBE® 127 CLP PRODUCT RANGE

KEEPING YOUR FIREARMS COMBAT-READY IN ALL CONDITIONS

What makes NYCOLUBE® 127 CLP product range stand out from the rest?

CLP qualified by the U.S. Department of Defense

NYCOLUBE® 127 CLP product range is qualified by the American DoD and is registered on the Qualified Product Listing under MIL-PRF-63460 after having successfully passed all firing tests (cold and hot temperature, sand, salt water immersion etc.).

Is your current CLP Supplier on the Qualified Product List?

Suitable for all weapon types and calibers

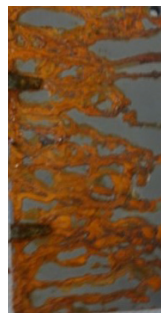

From small caliber (single shot pistol to automatic assault rifles) to larger weapon systems (artillery tank cannons, aircraft mounted guns, etc.) NYCOLUBE® 127 CLP product range helps weapons perform continuously at maximum firing rate without incidents.

Optimal performance in the harshest conditions:

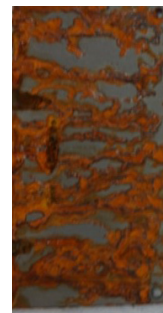

- Outstanding temperature range -54°C up to 150°C,
- High performance in all types of environments (desert ,snow, tropical..),
- Best in corrosion protection
