September 21<sup>st</sup> 2015, Paris (France):

NYCO announced that Pratt & Whitney Canada lately approved Turbonycoil 600, a synthetic standard turbine oil, for use in PT6A turboprop and PT6C variant for helicopters. This qualification enables NYCO to propose its reference turbine oil to a wide new range of civil and military aircraft: from business jets to military training aircraft and helicopters of the latest generation including Airbus Helicopters H175 and Agusta Westland AW139.

*« This qualification confirms the leading role of NYCO in military aviation by allowing it to reach the majority of air forces worldwide and it expands our offer on the civil aviation market. », said Guillaume Forestier, Director of NYCO Aeronautics division. « We strive to provide our customers the most advanced technologies and the most exhaustive range of products for all fleets. »*

Approved against demanding specifications, including SAE AS5780 SPC Class and MIL-PRF-23699 F STD Class, Turbonycoil 600 is approved by all major engine manufacturers (General Electric, Pratt & Whitney, Pratt & Whitney Canada, Rolls-Royce, Snecma, Turbomeca, CFMI, Klimov, Motor Sich, Aviadvigatel).

Turbonycoil 600 offers outstanding benefits including:

- Engine cleanliness (excellent non-coking performance);
- Low volatility at high temperature;
- High flash point;
- Low foaming tendency;
- Superior lubricity.

###

**About NYCO:**

NYCO is a worldwide-recognized manufacturer of synthetic esters and specialty lubricants for Aeronautics, Defence and Industry. Our solutions include:

- Civil aviation lubricants
- Military lubricants compliant with international specifications
- Ground gas turbines lubricants
- Synthetic ester base stocks for lubricants, plasticizers, dielectric fluids
- Synthetic lubricants for industrial and automotive applications
- NYCOGREEN: environmentally-considerate and biodegradable esters and lubricants
