AVI-OIL India to supply TURBONYCOIL 600 NYCO turbine oil for Alliance Air ATR fleet

January 19, 2024 · by admin

🔊 Tap to listen this article (play/stop)

AVI-OIL India has announced that Alliance Air has selected TURBONYCOIL 600 to lubricate its regional fleet comprising ATR72 and ATR42 aircraft powered by Pratt & Whitney Canada (P&WC) engines.

AVI-OIL India [P] Ltd, a collaborative venture involving Indian Oil Corporation Ltd., Balmer Lawrie and Co. Ltd., and NYCO France, along with its authorized distributor Tentacles Aerologistix, jointly announces that Alliance Air, a wholly-owned subsidiary of Air India Asset Holdings Ltd (AIAHL),

[Home](#)[About Us](#)[News](#) ▾[Advertisement](#)[Editorial Calendar](#)[Upcoming Events](#)[Archives](#)[Contact Us](#)

Vineet Sood, CEO, Alliance Air said, *“We are delighted to confirm a seamless transition to our new engine oil NYCO TURBONYCOIL 600 . Our rigorous multi-evaluation process ensures that the chosen supplier meets our high standards for quality, reliability, and cost-effectiveness. This move reflects our commitment to optimal engine performance and a successful partnership with NYCO and Avi-Oil.”*

TURBONYCOIL 600 is approved in line with demanding specifications, including SAE AS5780 SPC Class and MILPRF-23699 G STD Class. It is qualified by all major engine manufacturers such as General Electric, Pratt & Whitney, Pratt & Whitney Canada, Rolls-Royce, Safran Aircraft Engines, Safran Helicopters Engines, and CFMI. The lubricant, with over 35 years of usage in jet engines of military and commercial aircraft, is known for its reliability and adherence to stringent industry standards.

Rahul Pandey – Executive Director (Engg), Alliance Air said, *“ We started using NYCO TURBONYOIL 600 since Sept 2023 and the support received from AVI-OIL for the smooth transition was commendable.”*

This collaboration signifies a strategic alignment between AVI-OIL, NYCO, and Alliance Air, aiming to enhance the efficiency and performance of the ATR fleet. The successful implementation of TURBONYCOIL 600 further strengthens AVI-OIL’s position as a trusted provider of high-quality lubrication solutions in the aviation sector.

“We appreciate this great opportunity to supply a field proven TURBONYCOIL 600 to Alliance Air.

Engines

of Air Transport Services Group

January 19, 2024 · by MRO Business Today

ATSG's longstanding relationship with IAI, which includes the conversion of over 150 Boeing 767 aircraft, is further solidified with this newly signed contract.

🔊 Tap to listen this article (play/stop)

Israel Aerospace Industries (IAI) Aviation Group has inked a significant long-term contract to maintain and service Pratt & Whitney PW4000 engines for Cargo Aircraft Management (CAM), the leasing company of Air Transport Services Group (ATSG). IAI's Bedek MRO Division will carry out engine maintenance at its cutting-edge facilities, renowned as a global center of knowledge and a leading Maintenance, Repair, and Overhaul (MRO) house.

ATSG's longstanding relationship with IAI, which includes the conversion of over 150 Boeing 767 aircraft, is further solidified with this newly signed contract. The agreement underscores the depth of cooperation between IAI, ATSG, and CAM, showcasing the value ATSG places on its partnership with IAI as it continues to deliver industry-leading services to its leasing customers in the United States and globally.

Ido Ben Cnaan, VP & General Manager, Bedek MRO of Aviation Group, Israel Aerospace Industries said, *"For the last 70 years, Bedek MRO has been considered a world leader in the MRO sector, with extensive experience in the fields of maintenance, repair, and overhaul, for a variety of aircraft and engines – including the PW4000. We are proud of the confidence and long-standing cooperation with ATSG being strengthened with the signing of the current contract. IAI welcomes this long-term contract and expects to deepen the business connections both between our companies, and with the American market."*

IAI's Bedek MRO serves aviation companies and commercial operators worldwide, offering a comprehensive range of MRO capabilities for aircraft, engines, and subsystems. IAI's support spans both wide- and narrow-body aircraft produced by leading manufacturers such as Boeing, Airbus,

more.

The Aviation Group's recognition as a global center for aviation expertise positions IAI as a key player in the industry. Through its diverse activities, spanning military and civilian manned aircraft, MRO, business jets, and more, IAI continues to contribute significantly to the advancement of aviation technology and services.

The long-term contract with ATSG's Cargo Aircraft Management reaffirms IAI's commitment to delivering excellence, reliability, and serviceable engine support. The collaboration between these industry leaders not only deepens business connections but also underscores the shared commitment to meeting the evolving needs of the American market and the global aviation community.

Question- Who will carry out the engine MRO on the Cargo Aircraft Management Pratt & Whitney PW4000 engines?

Answers- IAI's Bedek MRO Division

Question-What does Bedek MRO Division of IAI specialize in?

Answers- Maintenance, Repair, and Overhaul (MRO) for a variety of aircraft and engines
